Municipal Paid Parking Zone

Subzone A* Monday – Sunday (9:00 AM – 10:00 PM)

Important information for Subzone A:

Shopping Sundays: parking in Subzone A is free on shopping Sundays. On other Sundays, parking in this zone is paid for people without Kraków Card privileges.

Kraków Card holders: persons with an active Kraków Card status are exempt from parking fees on Sundays in Subzone A. Condition: entering the vehicle registration number into the system in the Kraków Card user account.

How to pay for parking in the Paid Parking Zone:

- **purchase a ticket at a parking meter** (all meters accept coins and contactless cards; you must enter the correct license plate number) – [Mapa.parkomatów](http://Mapa.parkomatow.pl))
- **purchase a subscription/permit** – available at the Paid Parking Zone office: ul. W. Reymonta 20 or online: eabonament.zdmk.pl
- **pay using a mobile app**

A person with a foreign phone number can pay for parking in the Paid Parking Zone using the following applications: www.mobilet.pl (registration possible via email), www.electronicparking.pl, www.cityparkapp.pl, www.anypark.pl

Fully electric vehicles are exempt from parking fees in the paid parking zone. This exemption also applies to electric vehicles registered outside Poland. Hybrid vehicles (electric-combustion) are not covered by exemptions. Identification of an electric vehicle is based on its marking: an EE sticker with a hologram on the windshield (currently no longer issued) or a green license plate. In the case of electric vehicles that do not have the above identification, if a notice to pay an additional fee is issued, proof (e.g. a scan of the registration certificate) must be provided during the complaint process to confirm that it is an electric vehicle.

Parking of motorcycles in the paid parking zone is free.
